9 September 1958

MEMORANDUM FOR: Mr. Milton E. Jenkins
Atomic Energy Commission

SUBJECT: Request for Field Trip to Atomic Energy
Commission Facilities

1. In accordance with preliminary arrangement made with you on 21 August 1958, permission is requested to make a detailed field study of Atomic Energy Commission facilities.

2. The field study as proposed calls for action by the Commission as follows:

a. Permission for overflights of all AEC facilities listed on itinerary which may involve circling or repeated passes over a facility.

b. Approval for the taking of photographs from both ground and air of all facilities by field trip participants.

c. Approval to scan photo files at facilities visited for the purpose of requesting retention copies of prints for photographic intelligence use.

d. Procurement of local transportation, airport to hotel to AEC facilities.

e. Arrangements for reservations at nearby hotels for field study participants and plane crew, totaling 24 persons.

3. Attachments A and B are the proposed itinerary for the field study and the roster of participants.

4. Your assistance in this matter is greatly appreciated.

ARTHUR C. LUNDHAL
Director,
CIA Photographic Intelligence Center
